Myss's program consists of a group of spirited talks on how to reconcile personal will with the idea of an almighty power who directs what happens in the universe. Myss provides an empathic panorama of human frailties and tragedies, and a clear summary of how we use psychological defenses to avoid the risk of manifesting our creativity. As an integration of Eastern and Western approaches to living, the program will grab your attention with its clarity and crafty blending of concepts from both philosophical traditions. It's also a compassionate lesson on personal responsibility for one's creative gifts--so well organized and intimately expressed that repeated listening and sharing with friends will be hard to resist.
