Diagnostic Manual—Intellectual Disability (DM-ID): A Textbook of Diagnosis of Mental Disorders in Persons with Intellectual Disability From Brand: NADD

Grounded in evidence-based methods and supported by the expert-consensus model, this manual offers a broad examination of intellectual disability (ID), including a description of each disorder, a summary of the DSM-IV-TR diagnostic criteria, a review of the literature and research in the field and an evaluation of the evidence supporting its conclusions, a discussion of the etiology and pathogenesis of the disorders, and adaptations of the diagnostic criteria for the ID population. Chapters in the DM-ID cover both special issues, such as assessment and diagnostic procedures and presentations of behavioral phenotypes of genetic disorders, and the individual DSM-IV categories. For each disorder, descriptive text details how to apply diagnostic criteria while tables further illustrate various factors.

In a situation you wish to purchase the e-book, you can start their official web-site in addition to order it. Have a nice learn.

Connie Hockaday:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just little students that has reading's spirit or real their passion. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that examining is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Diagnostic Manual—Intellectual Disability (DM-ID): A Textbook of Diagnosis of Mental Disorders in Persons with Intellectual Disability can make you truly feel more interested to read.
