Editorial Review

Review

Tactics Time to the Rescue!

These problems are not contrived - they are the types of tactics likely to occur in a real game.

-Grandmaster Alex Fishbein

I used this book as a compliment to my chess training and in this year I am now 2048 in rating. Prior to winning the **2013 ALL GIRLS NATIONAL OPEN** in Chicago, I used this book continually on my Kindle everywhere I went - I went 6-0 undefeated.

I am grading "TACTICS TIME!" with a 97 out of 100 on the Claudia Munoz Gold Standard

-WCM Claudia Munoz

It's the '**meat and potatoes**' tactics book, with puzzles you are more likely to see in real games.

Many books have artificial puzzles, but these are taken from real games.

Statistically, these are the most common type of tactics which we all face. The puzzles are taken from amateur games with dubious openings, messy pawn structures, material uneven.

It is an interesting philosophy, I like it.
