The Sources of Social Power: Volume 2, The Rise of Classes and Nation-States, 1760-1914 By Michael Mann

Distinguishing four sources of power in human societies - ideological, economic, military, and political - The Sources of Social Power traces their interrelations throughout human history. This second volume of Michael Mann's analytical history of social power deals with power relations between the Industrial Revolution and the First World War, focusing on France, Great Britain, Hapsburg Austria, Prussia/Germany and the United States. Based on considerable empirical research, it provides original theories of the rise of nations and nationalism, of class conflict, of the modern state and of modern militarism. While not afraid to generalize, it also stresses social and historical complexity. Michael Mann sees human society as "a patterned mess" and attempts to provide a sociological theory appropriate to this. This theory culminates in the final chapter, an original explanation of the causes of the First World War. First published in 1993, this new edition of volume 2 includes a new preface by the author examining the impact and legacy of the work.

Editorial Review

Review

Reviews of the first edition: 'The ambition of the conception is, against all conventional expectations, matched by the clarity and grandeur of the execution.' *The Times Literary Supplement*

'This work offers a treasure trove of facts and interpretations that will be useful to readers in many disciplines ...' *Choice*

'This is a book in the grand Weberian tradition. Mann's conceptual skills and historical grasp are virtuosic and the scope of his enterprise is truly impressive.' *Politics and Society*

'... a unique brand of historical sociology that is refreshingly iconoclastic, remarkably complex, and breathtakingly ambitious ... a must-read for comparative and historical sociologists.' *Contemporary Sociology*

About the Author

Michael Mann is Distinguished Professor of Sociology at the University of California, Los Angeles. He is the author of *Power in the 21st Century: Conversations with John Hall* (2011), *Incoherent Empire* (2003) and *Fascists* (Cambridge, 2004). His book *The Dark Side of Democracy* (Cambridge, 2004) was awarded the Barrington Moore Award of the American Sociological Association for the best book in comparative and historical sociology in 2006.

Users Review

From reader reviews:
