

Understanding Psychosocial Adjustment to Chronic Illness and Disability: A Handbook for Evidence-Based Practitioners in Rehabilitation

By Dr. Elizabeth Da Silva Cardoso PhD, Dr. Julie A. Chronister PhD

Understanding Psychosocial Adjustment to Chronic Illness and Disability: A Handbook for Evidence-Based Practitioners in Rehabilitation By Dr. Elizabeth Da Silva Cardoso PhD, Dr. Julie A. Chronister PhD

Rehabilitation practitioners face the difficult task of helping clients adjust to chronic illness or disability. This can be a long and trying process for both practitioner and client. With this handbook, however, practitioners and students can gain a wealth of insight into the critical issues clients face daily.

This book presents the dominant theories, models, and evidence-based techniques necessary to help the psychosocial adjustment of chronically ill or disabled persons. Each chapter is written from an evidence-based practice (EBP) perspective, and explores how important issues (i.e., social stigma, social support, sexuality, family, depression, and substance abuse) affect persons adjusting to chronic illness and disability.

Key features include:

- A review of psychopharmacological treatment options for depression, anxiety, and other disorders coinciding with rehabilitation
- The effect of rehabilitation on the family, including key family intervention strategies
- Strategies for using positive psychology and motivational interviewing in rehabilitation
- Multiculturalism and the effect of culture on the adjustment process
- Ancillary materials including an instructor's manual with a syllabus, examination items, PowerPoint presentation, and answers to class exercises

By incorporating research-based knowledge into clinical rehabilitation practice, health care professionals can ensure that people with chronic illness and disability receive only the best treatment."

Donna Cauley:

Now a day people who Living in the era exactly where everything reachable by talk with the internet and the resources inside it can be true or not involve people to be aware of each facts they get. How people have to be smart in receiving any information nowadays? Of course the answer is reading a book. Reading through a book can help people out of this uncertainty Information specially this Understanding Psychosocial Adjustment to Chronic Illness and Disability: A Handbook for Evidence-Based Practitioners in Rehabilitation book since this book offers you rich data and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it as you know.

Maria Peterson:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Understanding Psychosocial Adjustment to Chronic Illness and Disability: A Handbook for Evidence-Based Practitioners in Rehabilitation can make you experience more interested to read.
