Editorial Review

Review

"He has written the definitive volume that delineates the boundaries around what is known and unknown in the search for indisputable proof of the presence on extraterrestrial intelligence on the planet....Here are the results of years of research, countless hours of pouring through archives ...and endless presentations to Congress and high-level officials.....This volume belongs on your shelf. Don't miss it" -- *Contact Forum - Brian Crissey*

Here is a sensational new book that I'm feeling driven to tell everyone about. It is a riveting, scientifically grounded revelation. With every few pages it seems to blow my mind. By nature curious, I have no qualms about asking questions and vague, nebulous, anecdotal UFO/ET accounts don't usually sustain my interest for long. But I was deeply moved by this book, because the material seems rock solid; it is breathtaking, inspiring. -- *unsolicited comment from a reader*

From the Publisher

This book has been fantastically well received by the public. Here are some of the comments.

"I read Dr. Greer's book. Wow! It is excellent! beautifully written, the book contains a lot of new information about the ET experience worldwide. Dr. Greer's book should be a must read for every citizen of the world. I have read many of the top UFO books (Timothy Good), but Dr. Greer's is the best book on the subject I've read." B.H. (former military intelligence).

"I recently finished Dr. Greer's book 'Extraterrestrial Contact: The Evidence and Implications'. I must say that it is by far the most informative and 'believable' book on the ET subject that I have ever read, and I have read many. I honestly believe that Dr. Greer will be the one person responsible for getting the ET questions answered for the whole world to see." J.D.R.

"There's a sensational new book that I'm feeling driven to tell everyone about....The book is Extraterrestrial Contact: The Evidence and Implications and it is a riveting, scientifically grounded revelation. With every few pages, it seemed to blow my mind. By nature curious, I have no qualms about asking questions, and vague, nebulous, anecdotal UFO/ET accounts don't usually sustain my interest for long. But I was deeply moved by this book, because the material seems rock solid. It is breathtaking, inspiring...and disturbing. The 50 year campaign of disinformation, fear mongering, hoaxes and extra-legal activities by covert managements of this phenomenon has unfortunately been extremely successful and most people are honestly confused and uninformed about what will one day be seen as the most momentous development of the 20th-21st centuries.

"This book is so good...I am giving this to my adult children as their introduction to the reality of all the possibilities of their future." K.B.

From the Back Cover

Featured in the book- - the best UFO/ET cases and the evidence for them - the best US and other official, government smoking gun documents related to UFOs - the remarkable Close Encounters of the Fifth Kind experiences of Dr.Greer and the CSETI research teams who have encountered and made contact with UFOs all over the world - a thought-provoking overview of why ETs are here, what are the implications of

disclosing this knowledge to the world and how the world will change once the truth is known - an inside view of the famous CSETI Project Starlight briefings to President Clinton's first CIA Director, key members of Congress, the UN leadership and very senior Pentagon officials at the highest level of the military, among others.

Relying on first-hand knowledge from his CSETI research experiences and direct sources from covert projects, Dr. Greer brings a unique combination of scientific knowledge, credibility, vision, humor and inspiration to the subject. Arguably the most insightful book ever written on the subject of UFOs, ETs, and government secrecy.

Users Review

From reader reviews:

Rene Pina:

Typically the book Extraterrestrial Contact: The Evidence and Implications will bring someone to the new experience of reading the book. The author style to describe the idea is very unique.
