

Bootstrap: Responsive Web Development

By Jake Spurlock

Bootstrap: Responsive Web Development By Jake Spurlock

Discover how easy it is to design killer interfaces and responsive websites with the Bootstrap framework. This practical book gets you started building pages with Bootstrap's HTML/CSS-based tools and design templates right away. You'll also learn how to extend your app with interactive features, using its suite of jQuery plugins—often without writing a single line of code.

Developed by Twitter and available free from GitHub, Bootstrap supports responsive design by dynamically adjusting your web page layout. With just a basic knowledge of HTML, CSS, and JavaScript, you can build apps that work equally well on desktop screens, smartphones, and tablets. This book shows you how.

- Become familiar with Bootstrap's file structure, grid systems, and container layouts
- Learn HTML elements for typography, code, tables, forms, buttons, images, and icons
- Design interfaces and other web elements, such as navigation, breadcrumbs, and custom modal windows
- Use jQuery plugins for features such as revolving slideshows, tabbable interfaces, and dropdown menus
- Modify everything from column count to typography colors with the LESS stylesheet language

Editorial Review

About the Author

Jake Spurlock is a developer for O'Reilly Media where he works for MAKE magazine. MAKE publishes a DIY magazine, produces Maker Faire, and is trying to make the world a better place by teaching people that they can make things. Jake is a Utah native, but a year and a half ago was grafted into the California wine country.

Users Review

From reader reviews:

Henrietta Jimerson:

Here thing why this particular Bootstrap: Responsive Web Development are different and reputable to be yours. First of all studying a book is good nevertheless it depends in the content of it which is the content is as delightful as food or not. Bootstrap: Responsive Web Development giving you information deeper and in different ways, you can find any book out there but there is no e-book that similar with Bootstrap: Responsive Web Development. It gives you thrill examining journey, its open up your eyes about the thing in which happened in the world which is possibly can be happened around you. You can actually bring everywhere like in playground, café, or even in your technique home by train. In case you are having difficulties in bringing the printed book maybe the form of Bootstrap: Responsive Web Development in e-book can be your alternate.

Joan Marcial:

Information is provisions for anyone to get better life, information nowadays can get by anyone in everywhere. The information can be a knowledge or any news even restricted. What people must be consider any time those information which is from the former life are hard to be find than now could be taking seriously which one is suitable to believe or which one the particular resource are convinced. If you find the unstable resource then you get it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Bootstrap: Responsive Web Development as your daily resource information.

Sarah Luis:

Your reading sixth sense will not betray anyone, why because this Bootstrap: Responsive Web Development publication written by well-known writer who knows well how to make book which can be understand by anyone who read the book. Written within good manner for you, dripping every ideas and creating skill only for eliminate your current hunger then you still hesitation Bootstrap: Responsive Web Development as good book but not only by the cover but also from the content. This is one guide that can break don't assess book by its include, so do you still needing another sixth sense to pick this particular!/? Oh come on your studying

sixth sense already alerted you so why you have to listening to a different sixth sense.

Joseph Robison:

What is your hobby? Have you heard in which question when you got learners? We believe that that problem was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. So you know that little person including reading or as studying become their hobby. You should know that reading is very important and also book as to be the thing. Book is important thing to include you knowledge, except your own teacher or lecturer. You will find good news or update concerning something by book. Amount types of books that can you go onto be your object. One of them is actually Bootstrap: Responsive Web Development.
