

The Hierarchy of Heaven and Earth

By Douglas Edison Harding

The Hierarchy of Heaven and Earth By Douglas Edison Harding

This book begins with the question 'Who am I?' and immediately sets off in an astonishingly original direction. Why didn't anyone before Harding think of responding to this question like this? It's so obvious, once you see it. Harding presents a new vision of our place in the universe that uses the scientific method of looking to see what is true. It turns out that the truth about ourselves is not only true but also very good, and breathtakingly beautiful. We live in a sacred, many-layered, living universe - or rather it lives in us. Though it was completed in 1950, this book is still ahead of its time. One day it will surely be widely recognised for its greatness: its all-encompassing vision, its originality and freshness, its depth of insight, its wide-ranging knowledge, the clarity and poetry of its language, its humanity. It is a world-view not dependent on local culture or religion, but on universally verifiable facts. It is also a world-view that respects our manifest differences whilst celebrating our underlying unity - the unity not just of oneself with other people but with all of life, indeed with the whole universe. Harding died in 2007 aged 97, leaving behind him an impressive body of work. He was a highly creative person who was passionate about - he was in love with - this living universe and the immortal treasure that abides at its centre - at our centre. "A work of the highest genius." C. S. Lewis.

Editorial Review

About the Author

Douglas Harding (1909-2007) was a British philosopher who worked out a modern map of our place in the universe. Harding invented experiments for testing the view that at centre, at zero distance, you are different from your appearance at say ten feet. At zero distance you are 'space for the world'. Harding's experiments mean you don't believe this, you test it for yourself. This insight corresponds with what all great mystics have said about who we really are.
