"*Great Garden Companions* is a book as fresh as the first spring carrot, as new as a butterfly emerging from a chrysalis. Sally Cunningham's gentle appreciation for the intricacies of nature coupled with plenty of practical, hands-on gardening experience makes her book both useful and soul-satisfying. Her garden plans are doable and earth-friendly, and her guide to backyard beneficial insects is invaluable. This book deserves a place in the library and hearts of concerned gardeners everywhere." ?*Sharon Lovejoy, author and illustrator of Sunflower Houses and Hollyhock Days and a contributing editor to Country Living Gardener magazine*

"*Great Garden Companions* lives up to its name-- it's great! This very approachable how-to book brings organic gardening to a whole new level-- viewing the garden as part of nature. I wish I'd had a book like this when I started gardening." ?*Rosalind Creasy, author of The Complete Book of Edible Landscaping and Herbs: A Country Garden Cookbook*
