

## Mathematics for Engineers and Scientists, Sixth Edition

By Alan Jeffrey

**Mathematics for Engineers and Scientists, Sixth Edition** By Alan Jeffrey  
A new chapter introducing the MATLAB and Maple software packages

Although designed as a textbook with problem sets in each chapter and selected answers at the end of the book, Mathematics for Engineers and Scientists, Sixth Edition serves equally well as a supplemental text and for self-study. The author strongly encourages readers to make use of computer algebra software, to experiment with it, and to learn more about mathematical functions and the operations that it can perform.
