### Editorial Review

#### Review

'Guy Peters and Jon Pierre are rightly regarded as leading figures in the area, but even that does not guarantee the striking breadth reflected in the company of contributors: this quality may be because the 14 separate areas covered in the volume are 'franchised' to separate expert (and geographically scattered) 'part editors' to coordinate and discuss entries. There is in consequence a similarly striking breadth to the field reviewed. The title is somewhat 'retro' as the intellectual tradition is again reclaimed from policymaking, public sector management and other competing perspectives that have emerged. But while the label may be traditional, the content undermines any negative associations that implies' -

'If you are interested in a comprehensive yet compact and accessible account of current scholarly work on public sector organizations, this is the volume to have at hand. For this Handbook is not only a masterly and authoritatively selected collection of brilliant contributions, it also serves - interdisciplinary and comparative in outlook as it is - as a much needed cross-fertilizer between subfields of the public administration community' -

**Eckhard Schroeter**

**Professor of Administrative Sciences, Zeppelin University**

'Guy Peters and Jon Pierre and their colleagues have made an already essential handbook even more essential for students of public administration. New chapters on subjects such as administrative history, bureaucratic politics, representative bureaucracy, and intergovernmental relations add to the other excellent pieces to make for a magnificently comprehensive volume. Anyone interested in the administration of the contemporary state will want to read this volume and to have a copy of it at hand' -

**Distinguished Professor of Political Science and Public Policy, UCLA**
