Children By L. Ron Hubbard

Children

How to raise a happy, healthy child is not something most parents are taught. In fact, many just stumble through the entire process, albeit with the best intentions. Consequently, it is all too common to find an unhappy state of affairs in families, with constant friction between parents and children.

This is not a natural state. In fact, it can be avoided entirely. L. Ron Hubbard developed many methods to bring out the best in a child—and their parents. In this booklet, you will read about some of these methods and discover how to raise a child without breaking his spirit, how to have a child who is willing to contribute to the family, and how to help a child quickly overcome the daily upsets and tribulations of life.

Raising children should be a joy. And can be. In fact, it can be one of the most rewarding of all human experiences. The application of Scientology principles for children can ensure that they are happy, loving and productive, and that they become valuable members of the societies in which they live.

- * Concerned about your child's health and future happiness?
- * As a parent, are you worried you're doing it all wrong?
- * What does discipline have to do with raising a child?

For the solutions and answers to these situations, buy and read this booklet.

About the Author

L. Ron Hubbard

There are only two tests of a life well lived L. Ron Hubbard once remarked: Did one do as one intended? And were people glad one lived? In testament to the first stands the full body of his life's work, including some 12,000 writings and 3,000 tape-recorded lectures of Dianetics and Scientology. In evidence of the second are the hundreds of millions of individuals whose lives have been demonstrably bettered because he lived. They are the more than 28 million students now reading superlatively owing to L. Ron Hubbard's educational discoveries; they are the millions of men and women freed from substance abuse through L. Ron Hubbard's breakthroughs in drug rehabilitation; they are the near 100 million who have been touched by his nonreligious moral code: and they are the many millions more who hold his work to be the spiritual cornerstone of their lives.

Although best known for Dianetics and Scientology, L. Ron Hubbard cannot be so simply categorized. If nothing else, his life was too varied, his influence too broad. There are tribesmen in Southern Africa, for example, who know nothing of Dianetics and Scientology, but they know L. Ron Hubbard the educator. Likewise, there are factory workers in Albania who know him only for his administrative discoveries; children in China who know him only as the author of their moral code, and readers in dozens of languages who know him only for his novels. So, no, L. Ron Hubbard is not an easy man to categorize and certainly does not fit popular misconceptions of "religious founder" as an aloof and contemplative figure. Yet the more one comes to know this man and his achievements, the more one comes to realize he was precisely the sort of person to have brought us Scientology, the only major religion to have been founded in the twentieth century.

What Scientology offers is likewise what one would expect of a man such as L. Ron Hubbard. For not only does it provide a fully unique approach to our most fundamental questions—Who are we? From where did we come and what is our destiny? But it further provides an equally unique technology for greater spiritual awareness. So how would we expect to characterize the founder of such a religion? Clearly, he would have to be larger than life, attracted to people, liked by people, dynamic, charismatic and immensely capable in a dozen fields—all exactly L. Ron Hubbard.

The fact is, if Mr. Hubbard had stopped after only one of his many accomplishments he would still be celebrated today. For example, with 46 million works of fiction in circulation, including such monumental bestsellers as *Battlefield Earth*, *Fear and the Mission Earth* series, Mr. Hubbard is unquestionably one of the most acclaimed and widely read authors of all time. His novels have earned some of the world's most prestigious literary awards, and he has very genuinely been described as "one of the most prolific and influential writers of the twentieth century."

His earlier accomplishments are similarly impressive. As a barnstorming aviator through the 1930s he was known as "Flash" and broke local records for sustained glider flight. As a leader of expeditions, he is credited with conducting the first complete Puerto Rican mineralogical survey under United States protectorship and his navigational annotations still influence the maritime guides for British Columbia. His experimentation with early radio direction finding further became the basis for the Long Range Navigational system (Loran). And, as a lifelong photographer, his works have been displayed in galleries on two

continents, with the definitive body of his photographs in traveling and permanent exhibits still drawing tens of thousands every year.

Among other avenues of research, Mr. Hubbard developed and codified an administrative technology that is utilized by more than 200,000 organizations worldwide, including multinational corporations, charitable bodies, political parties, schools, youth clubs and every imaginable small business. Likewise Mr. Hubbard's internationally acclaimed educational methods are utilized by more than a hundred thousand educators, while his equally acclaimed drug rehabilitation program has proven at least five times more effective than similarly aimed programs.

Yet, however impressive these figures, no measure of L. Ron Hubbard is complete without some appreciation of what became his life's work: Dianetics and Scientology. The world's most effective force for positive change, the Church of Scientology represents spiritual freedom for millions of people the world over. They come from every walk of life, every culture and every strata of society. Moreover, when one is speaking of L. Ron Hubbard's discoveries relating to the human mind and spirit, one is ultimately speaking of the philosophic foundation of all he accomplished: better education, crime-free cities, drug-free campuses, stable and ethical organizations and cultural revitalization through the arts—all this and more is made possible because of the breakthroughs in Dianetics and Scientology.
