Clouser's Flies: Tying and Fishing the Fly Patterns of Bob Clouser By Bob Clouser

Recipes, instructions, methods, and variations are included, with color photos to tie 17 flies designed to catch trout, carp, smallmouth, pike, redbfish, albacore, and more. Clouser's approach to fly design begins and ends onstream, with a lot of time spent in between at the workbench. Careful observation of the behaviors, habitats, and physical features of the foods fish eat is essential to developing a fly that looks and acts like the real thing. But the pattern must also pass rigorous standards of durability, ease of casting, and most importantly, consistently catching fish before it can be called a winner. Including variations on his famous original Deep Minnow, Clouser presents recipes for seventeen of his most successful patterns for baitfish, subsurface freshwater foods, and surface flies with detailed explanations and superb full-color photographs to accompany every step. In sections devoted to materials and tying techniques, Clouser offers insight into his methods and provides a solid foundation for designing flies with confidence.

Editorial Review

"Always an experimenter when conventional fly patterns are not working, Bob tweaks patterns, or even invents new ones, to fool fish. His Clouser Deep Minnow is undoubtedly the most popular fly pattern to be developed in the last several decades. Bob shares his solid experience to help you tie better flies and understand why you do or do not catch fish. This book is one of the most useful published in some time." --

Lefty Kreh About the Author

Bob Clouser and his wife, Joan, own and operate Clouser's Fly Shop near their home in Middletown, Pennsylvania. Jay Nichols is the former managing editor of *Fly Fisherman* magazine and lives in Pennsylvania. Users Review

From reader reviews:
