

Identity and African American Men: Exploring the Content of Our Characterization

By *Kenneth Maurice Tyler*

Identity and African American Men: Exploring the Content of Our Characterization By Kenneth Maurice Tyler

Identity and African American Men: Exploring the Content of Our Characterization provides a comprehensive, research-based account of the ideologies and mindsets of many young African American men.

Identity and African American Men makes a unique contribution to the literature by offering a conceptual framework that identifies the multiple identity components possessed by young African American men. Such a framework expands the conversation about African American men and their behaviors by broadening the understanding of who these individuals are, the identities they possess, and how their identity-based attitudes and orientations may influence the behaviors exhibited by them.

Editorial Review

Review

Identity and African American Men is a compelling and heart-wrenching analysis of African male identity in the United States. From the Trayvon Martins to the President Barack Obamas, Tyler clearly articulates the development and impact of the diverse and complex identities of African American males of all ages and social locations. The book is written not just with passion, but with a meaningful balance of passion and authority. Tyler has presented a comprehensive conceptual model for both laypersons and scholars that provides greater understanding about, and visibility to, the experiences of African American males. (Lynda Brown-Wright, Georgia State University)

Kenneth Maurice Tyler's work reads as foundational in the emerging canon of affirming psychology research on Black men and boys. *Identity and African American Men* is sharply relevant amidst the pervasive performance of Black male identities within pop-culture and a stilted understanding of African American men and identity within the academy. Tyler's contribution offers a rare blend of deep, transformative scholarship and a common touch necessary in redefining Black men beyond pathological experiences too often misunderstood as default African American male identities. Tyler is a fresh voice in a crucial dialog. (David Wall Rice, Morehouse College)

Identity and African American Men is a must-read for anyone raising, teaching, or impacting the lives of African American males. It pushes one to dissect the racial issues faced daily by African American men. Kenneth Maurice Tyler's review of Trayvon Martin and the disparities faced in his short lifespan provides a sophisticated awareness to a problem of racial profiling that has plagued the African American community for decades. Tyler's conceptual model of the male identity uniquely links African American traditions and values while providing insight to the core of the African American male. Tyler challenges us to do more than continue to write and talk, but to do something about changing this ever-present phenomena. (Monica L. Dillihunt, University of Alabama Huntsville)

Kenneth M. Tyler describes the identity components of young African American men using theoretical and empirical literatures from education and social science disciplines. As a comprehensive, research-based account of the ideologies and mindsets of many young African American men, the book addresses the gender, sexual, racial, ethnic, cultural, socioeconomic, athletic, and academic facets of identity.

About the Author

Kenneth Maurice Tyler is associate professor of educational psychology in the College of Education at the University of Kentucky.
